Visual designer studying Digital Design & Development. I like taking a brand from first sketches and moodboards to a full identity: logo, type, packaging, motion and the app it lives in. I care about *typography, colour and layout*, and because I also write code, I design with how things will be built in mind.

## 01 SELECTED PROJECTS

**Miles & Meals** 2026
Brand identity, packaging and app design for a street food box service, from logo and stickers to a clickable prototype.
Figma · Branding · Packaging · UI design

**Revinyl** Kickstarter promo 2026
47-second motion film for BLOCK I, a device that plays digital music through your turntable. Concept, art direction, animation and sound.
After Effects · Audition · Photoshop

**The House Remembers** 2025
A forgotten deck of playing cards turned into three ways to throw a party. Concept, storytelling, illustration and the website that tells it.
Illustrator · Figma · Web design
